From The Toy Garden...

Tina and Robin are headed to Nürnberg, Germany for the biggest toy show in the world! Would you believe 80,000 people attend this show? We will have a chance to meet some of our European manufacturers that don't come to the New York show, and let them know who we are—all the way from Bellingham, WA! We also expect to see a lot of new toys and new vendors. It is very exciting! We will be posting on our facebook page while we are there, so be sure to check it out.

Pick of the Garden

This adorable set of ceramic dishes, along with mat and metal carrying case/lunch box, comes from one of our new vendors, The Piggy Story. They also make equally adorable art aprons in various patterns.

Another vendor that is new to us is the French company, Moulin Roty. These little cuties, along with their friends, will be on our shelves soon!
